PROJECTS

FSD PPROJECT – Learner Management System- [React](#), [Node.js](#), [Express.js](#), [MongoDB](#), [JavaScript](#), [HTML](#), [CSS](#)

Developed a full-stack Learner Management System with a React frontend and a Node.js backend. The frontend provides an interactive user interface for managing learners and courses, while the backend, built with Node.js and Express.js, handles data management and API endpoints. MongoDB is used for data storage, supporting CRUD operations and user authentication. The project highlights end-to-end development, from UI design to backend functionality.
